Thanks, Miranda.

If they combined segments, we should get that documented accurately at some point, but it doesn't really impact things right now.

Thanks, Amy

Hi Amy,

(b) (5)

Another consideration is the updated listing IDs. Between the TMDL submittal and now, Ecology has merged several listing IDs together. So for instance, now Percival Creek is under one listing ID for DO. My numbers are based on the old TMDL, because that is how our disapproval was put together, but I'm wondering now if I should revise it for you to be based on the new listing IDs?

Thanks,

Miranda Hodgkiss
